### Biomechanics #1: Crash Injury Analysis: Test and Computer Methods

- PaperNo.11-0129-O [New Challenge of Integrating an Accident Research System with the Medical and Engineering Network in Japan](#)
- PaperNo.11-0089-O [How Reliable Are Injury Risk Curves?](#)
- PaperNo.11-0157-O [ATD Lumbar Load Variation](#)
- PaperNo.11-0369-O [A Sled Test Method for Small Overlap Crashes and Fatal Head Injuries](#)
- PaperNo.11-0263-O [Kinematic Rotational Brain Injury Criterion \(BRIC\)](#)
- PaperNo.11-0035-O [Development of a Probabilistic Skull Fracture Model for a 50th Percentile Adult Male Motorcyclist ATD Headform](#)
- PaperNo.11-0043-O [Research of Collision Speed Dependency of Pedestrian Head and Chest Injuries Using Human FE Model \(THUMS Version4\)](#)
- PaperNo.11-0330-O [Development of Injury Criteria for Frontal Impact Using a Human Body FE Model](#)
- PaperNo.11-0256-O [Analytical and Experimental Data of Chest Deflections and Injuries in Side Impacts](#)
- PaperNo.11-0317-O [Image Segmentation and Registration Algorithm to Collect Homologous Landmarks for Age-Related Thoracic Morphometric Analysis](#)
- PaperNo.11-0195-O [Multi-Scale Biomechanical Characterization of Human Liver and Spleen](#)
- PaperNo.11-0193-O [Effects of Pre-Impact Bracing on Chest Deflection of Human Occupants in Low Speed Frontal Sled Tests](#)
- PaperNo.11-0150-O [Investigation of Pre-Impact Bracing Effects for Injury Outcome Using an Active Human FE Model with 3D Geometry of Muscles](#)
- PaperNo.11-0154-O [Implementation of Reactive Human Behavior in a Numerical Human Body Model Using Controlled Beam Elements as Muscle Element Substitutes](#)

### Side Impact and Rollover Crashes: Prevention and Occupant Protection

- PaperNo.11-0072-O [Development of a Side Impact Sled Test Method Using Multiple Actuators](#)
- PaperNo.11-0082-O [Side Impact Safety: Assessment of High Speed Advanced European Mobile Deformable Barrier \(AE-MDB\) Test and WorldSID with 'RibEye'](#)
- PaperNo.11-0115-O [Side Impact Air Bag Efficacy, Injury Mitigation Performance in Vehicle Models with and Without Side Impact Air Bags and Inflatable Head Protection](#)
- PaperNo.11-0133-O [An Assessment of Worldsid 50Th Percentile Male Injury Responses to Oblique and Perpendicular Pole Side Impacts](#)
- PaperNo.11-0173-O [A Study of Curtain Airbag Design Factors for Enhancement of Ejection Mitigation Performance](#)
- PaperNo.11-0200-O [Update on Investigation of New Side Impact Test Procedures in Japan](#)
- PaperNo.11-0245-O [Effectiveness and Estimation of the Likely Benefits of Side Impact Airbags in Passenger Vehicles in Victoria](#)
- PaperNo.11-0271-O [Vehicle Greenhouse Shape Analysis for Design of a Parametric Test Buck for Dynamic Rollover Testing](#)
- PaperNo.11-0304-O [Update of NHTSA's 2007 Analysis of ESC Effectiveness](#)
- PaperNo.11-0319-O [Effect of Side Impact Protection in Reducing Injuries](#)
- PaperNo.11-0344-O [Protecting Occupants in Rollover Crashes: Case Examples and Latest Technologies](#)
- PaperNo.11-0368-O [A Study of Occupant Ejection Mitigation](#)

## **Assessment of Strategies for Integrated Improvements in Fuel Economy and Safety, Including Use of Alternate Fuels and Batteries**

- PaperNo.11-0439-O [Post-Crash Fuel Leakage and Fire Safety Experiments for Hydrogen Vehicles](#)
- PaperNo.11-0096-O [Crash Safety of Hybrid- And Battery Electric Vehicles](#)
- PaperNo.11-0107-O [Safety Precautions and Assessments for Crashes Involving Electric Vehicles](#)
- PaperNo.11-0114-O [Injury Mitigation Technology Applications and the Relationships to Vehicle Mass, Price and Fuel Economy.](#)
- PaperNo.11-0302-O [Crash Safety Aspects of HV Batteries for Vehicles](#)
- PaperNo.11-0128-O [Technology Needs for Safe Electric Vehicles Solutions in 2030](#)
- PaperNo.11-0346-O [Advances in Aluminum: Mass Reduction Performance of PEV and PHEV Vehicles](#)
- PaperNo.11-0269-O [Lithium Ion Batteries for Hybrid and Electric Vehicles – Risks, Requirements and Solutions Out of the Crash Safety Point of View](#)
- PaperNo.11-0303-O [NHTSA Tire Rolling Resistance Test Development Project – Phase 2](#)
- PaperNo.11-0146-O [Research Issues in Eco-Safe Driving](#)
- PaperNo.11-0438-O [Lithium-Ion Based Rechargeable Energy Storage System \(RESS\) Safety Performance Measurement in Automotive Applications](#)

## **Biomechanics #2: Development of Crash Test Dummies Related Instrumentation and Analysis Techniques**

- PaperNo.11-0373-O [Evaluation of Seat Performance Criteria for Rear-End Impact Testing](#)
- PaperNo.11-0201-O [Study on Impact Response \(Injury Value\) Variation Factors for BioRID-II Dummies](#)
- PaperNo.11-0080-O [Comparison of WorldSID and Cadaver Responses in Low-Speed and High-Speed in Nearside Impact](#)
- PaperNo.11-0397-O [Real World Older Occupant Crash Data and Sensitivity of THOR-NT and WorldSID Dummy Thoraces](#)
- PaperNo.11-0312-O [Modifications to Improve the Durability, Usability and Biofidelity of the THOR-NT Dummy](#)
- PaperNo.11-0234-O [THOR-NT: Hip Injury Potential in Narrow Offset and Oblique Frontal Crashes](#)
- PaperNo.11-0341-O [Analysis of Thoracic Loading, Kinematics, and Injuries in Small Overlap Impacts: Field Data and Full-Scale Vehicle Tests with Dummies](#)
- PaperNo.11-0190-O [Evaluation of the Thoracic Deflection Measurement System ‘Ribeye’ in the Hybrid Iii 50% in Frontal Sled Tests](#)
- PaperNo.11-0313-O [Scaling Methods Applied to Thoracic Force Deflection Characteristic Derived from CPR](#)
- PaperNo.11-0265-O [Measurement of Aortic Injuries in Lower Severity Near-Side Impacts](#)
- PaperNo.11-0394-O [Characterization of the Pediatric Chest and Abdomen Using Three Post-Mortem Human Subjects](#)
- PaperNo.11-0218-O [Contribution to the Improvement of Crash Test Dummies in Order to Decrease Abdominal Injuries in Road Accidents](#)

## **Assessment of Performance of Occupant Protection Systems for Children, Older Adults, and Other Vulnerable Occupants**

- PaperNo.11-0037-O [Injury Risk to Seat Belt Restrained Occupants: Effect of Age and Seat Row](#)
- PaperNo.11-0053-O [Safety Performance Comparisons of Different Types of Child Seats in High Speed Impact Tests](#)

- PaperNo.11-0066-O [Identification of Head Injury Mechanisms of a Child Occupant in a Child Restraint System Based on Side Impact Tests](#)
- PaperNo.11-0118-O [The Cumulative Effect of Multiple Forms of Minor Incorrect Use in Forward Facing Child Restraints on Head Injury Risk](#)
- PaperNo.11-0135-O [The Effect of Varied Seatbelt Anchorage Locations on Booster Seat Sash Guide Effectiveness](#)
- PaperNo.11-0138-O [Applying Side Impact Cushion Technology to Child Restraint Systems](#)
- PaperNo.11-0210-O [Comparison of Injury Probability of Elderly Versus Young Belted Car Drivers – an In-Depth-Analysis by Gidas](#)
- PaperNo.11-0225-O [The Importance of Age for Injury Severity Among Car Drivers and Pedestrians](#)
- PaperNo.11-0227-O [NHTSA’s Evaluation of a Potential Child Side Impact Test Procedure](#)
- PaperNo.11-0257-O [Rear Seat Safety in Frontal to Side Impacts - Focusing on Occupants from 3yrs to Small Adults](#)
- PaperNo.11-0383-O [Child Frontal Impact Safety in Coaches](#)
- PaperNo.11-0390-O [Occupant Injuries in Frontal Crashes by Age, Weight and BMI](#)
- PaperNo.11-0406-O [Interactions of Rear Facing Child Restraints with the Vehicle Interior During Frontal Crash Tests](#)

**Advanced Technology #1: Safety Performance Effectiveness of Driver Assistance Technologies, Test & Evaluation Procedures, and Benefits Assessment**

- PaperNo.11-0061-O [A Test Programme for Active Vehicle Safety - Detailed Discussion of the EVALUE Testing Protocols for Longitudinal Functionality](#)
- PaperNo.11-0155-O [RCS-TUG Study: Benefit Potential Investigation of Traffic Safety Systems with Respect to Different Vehicle Categories](#)
- PaperNo.11-0158-O [Safety Impact of Integrated Crash Warning Systems Based on Field Test Data](#)
- PaperNo.11-0260-O [Driver Acceptance and Behavioral Changes with an Integrated Crash Warning Systems: Key Findings from the IVBSS FOT](#)
- PaperNo.11-0208-O [Ecall System: French a Posteriori Efficiency Evaluation](#)
- PaperNo.11-0212-O [Benefit Assessment of Forward-Looking Safety Systems](#)
- PaperNo.11-0244-O [The Victorian Intelligent Speed Assist and Heavy Vehicles Trial: Analysis of Device Acceptability and Influence on Speed Choice](#)
- PaperNo.11-0207-O [The Efficiency of PRE-SAFE® Systems in Pre-Braked Frontal Collision Situations](#)
- PaperNo.11-0292-O [Design and Evaluation of an Integrated Vehicle Safety System for Longitudinal Safety and Lateral Stability](#)
- PaperNo.11-0367-O [Funke App 22nd ESV Paper 11-0367](#)
- PaperNo.11-0054-O [On the Use of Real-World Accident Data for Assessing the Effectiveness of Automotive Safety Features – Methodology, Timeline and Reliability](#)
- PaperNo.11-0067-O [A Generative Approach to Estimate Effects of Safety Systems for Rear-End Collisions Using ASSTREET](#)
- PaperNo.11-0187-O [Development of a Target Propulsion System for ASSESS](#)
- PaperNo.11-0242-O [Pre-Crash Scenario Framework for Crash Avoidance Systems Based on Vehicle-To-Vehicle Communications](#)
- PaperNo.11-0164-O [Car-To-Pedestrian Contact Situations in Near-Miss Incidents and Real-World Accidents in Japan](#)
- PaperNo.11-0350-O [Influence of Driver Assistance Systems on Repair Costs](#)
- PaperNo.11-0352-O [Cars Are Driven on Roads, Joint Visions and Modern Technologies Stress the Need for Co-Operation.](#)
- PaperNo.11-0360-O [Two Metrics of Night Vision System Performance](#)
- PaperNo.11-0301-O [Analysis and Validation of Perception Sensor Models in an Integrated Vehicle and Environment Simulation](#)

## Vehicle Safety: Regulatory Compliance & Enforcement and Defects Investigations

PaperNo.11-0264-O [Sensitivity of Tolerance Limits on Motorcycle Impact Attenuation Tests](#)

## Advanced Technology #2: Human Performance and Driver Behavior

- PaperNo.11-0252-O [Developing Crash Warning Interface Metrics: Evaluating the Human-Machine Interface for Forward Collision Avoidance Systems and Lane Departure Systems](#)
- PaperNo.11-0284-O [Assessment of Behavioral Aspects in Integrated Safety Systems \(EU FP7 Project Assess\)](#)
- PaperNo.11-0121-O ["Perceptual Risk Estimate \(PRE\)": An Index of the Longitudinal Risk Estimate](#)
- PaperNo.11-0111-O [Emergency Steer & Brake Assist - A Systematic Approach for System Integration of Two Complementary Driver Assistance Systems](#)
- PaperNo.11-0441-O [The Development of Equipment to Detect Alcohol in the Human Body](#)
- PaperNo.11-0322-O [Using Vehicle-Based Sensors of Driver Behavior to Detect Alcohol Impairment](#)
- PaperNo.11-0230-O [Driver Alcohol Detection System for Safety \(DADSS\): Phase I Prototype Testing and Findings](#)
- PaperNo.11-0320-O [Thinking About Distraction – a Conceptual Framework for Assessing Driver-Vehicle On-Road Performance in Relation to Secondary Task Activity](#)
- PaperNo.11-0258-O [Influence of the Minimum Swerving Distance on the Development of Powered Two Wheeler Active Braking](#)
- PaperNo.11-0398-O [Assistance in Oncoming Traffic Situations](#)

## Restraint System Design and Performance Challenges: Effects of Future Fleet Changes

- PaperNo.11-0110-O [Optimization of Restraint Systems of a Vehicle Architecture Using Meta Models](#)
- PaperNo.11-0199-O [Development of Body Structure for Crash Safety of the Newly Developed Electric Vehicle](#)
- PaperNo.11-0251-O [Model-Based Analysis of Sensor-Noise in Predictive Passive Safety Algorithms](#)
- PaperNo.11-0163-O [Is the Driving-Wheel Airbag the Best Solution for Protecting the Driver in Frontal Impacts?](#)
- PaperNo.11-0351-O [Actual Restraint Systems Reached Their Limit](#)
- PaperNo.11-0281-O [Method to Estimate the Field Effectiveness of an Automatic Braking System in Combination with an Adaptive Restraint System in Frontal Crashes](#)
- PaperNo.11-0442-O [Analysis of the Pre-Crash Benefit of Reversible Belt Pre-Pretensioning in Different Accident Scenarios](#)
- PaperNo.11-0296-O [Investigation of Pre-Braking on Unbelted Occupant Position and Injuries Using an Active Human Body Model \(HBM\)](#)
- PaperNo.11-0306-O [Effect of Various Pre-Crash Braking Strategies on Simulated Human Kinematic Response with Varying Levels of Driver Attention](#)
- PaperNo.11-0318-O [Presentation and Discussion of a Crash Test Using a Car with Autonomous Pre-Crash-Braking](#)
- PaperNo.11-0381-O [Standard & Integrated Restraint First Row Seat Performance in Rear-Impact Crashes](#)
- PaperNo.11-0408-O [Seat Headrest Development to Detect the Head Position of Passenger](#)
- PaperNo.11-0278-O [Reducing Neck Injuries by Controlling Seat Back Dynamic Movement](#)

## **Advancements in Pedestrian and Other Vulnerable Non-Occupant Road User-Safety**

- PaperNo.11-0079-O [Improved Assessment Methods of Lower Extremity Injuries in Vehicle-To-Pedestrian Accidents Using Impactor Tests and Full-Scale Dummy Tests](#)
- PaperNo.11-0328-O [Usage of the New Pedestrian Safety Legform Impactor FlexPLI from a Manufacturer's Point of View \(Working Title\)](#)
- PaperNo.11-0137-O [Review of the Euro NCAP Upper Leg Test](#)
- PaperNo.11-0119-O [Injury Risk Assessment at the Timing of Pedestrian Impact with a Road Surface in Car-Pedestrian Accidents](#)
- PaperNo.11-0277-O [Validation of Pedestrian Sedan Buck Using Human Finite Element Model](#)
- PaperNo.11-0432-O [Pedestrian Protection – Physical and Numerical Analysis of the Protection Offered by the Windscreen](#)
- PaperNo.11-0355-O [Accidents Between Pedestrians and Industrial Vehicles: From Injury Patterns to Dummy and Truck Prototypes](#)
- PaperNo.11-0094-O [Holland: VRU Paradise Goes for the Next Safety Level](#)
- PaperNo.11-0097-O [Development of Approaching Vehicle Sound for Pedestrians System for Quiet Electric Vehicles](#)
- PaperNo.11-0188-O [The Correlation Between Pedestrian Injury Severity in Real-Life Crashes and Euro NCAP Pedestrian Test Results](#)
- PaperNo.11-0300-O [Benefit Estimation of Secondary Safety Measures in Real-World Pedestrian Accidents](#)
- PaperNo.11-0217-O [Bio-Inspired Neuromorphic Identification of Pedestrian and Object for the Road User Safety](#)
- PaperNo.11-0196-O [Typical Pedestrian Accident Scenarios for the Testing of Autonomous Emergency Braking Systems](#)
- PaperNo.11-0057-O [Assessment of Active and Passive Technical Measures for Pedestrian Protection at the Vehicle Front](#)

## **NCAP and Other Non-Regulatory Strategies for Improving Safety**

- PaperNo.11-0075-O [Beyond NCAP: Promoting New Advancements in Safety](#)
- PaperNo.11-0088-O [Installation Patterns for Emerging Injury Mitigation Technologies, 1998 Through 2009.](#)
- PaperNo.11-0091-O [Application of ANCAP Star Ratings to Variants of Vehicle Models](#)
- PaperNo.11-0275-O [Assessment of 12 Years KNCAP Performances and a Plan for Elderly Occupant Protections](#)
- PaperNo.11-0165-O [IIHS Side Crash Test Ratings and Occupant Death Risk in Real-World Crashes](#)
- PaperNo.11-0235-O [Comparison of BioRID Injury Criteria Between Dynamic Sled Tests and Vehicle Crash Tests](#)
- PaperNo.11-0343-O [NHTSA'S Test Procedure Evaluations for Small Overlap/Oblique Crashes](#)
- PaperNo.11-0403-O [Methodology to Define Motorcyclist Casualty Risk According to Road User Profiles](#)
- PaperNo.11-0405-O [Development of a Dynamic Rollover Test](#)
- PaperNo.11-0178-O [Evaluation of the Car Safety Enhancements During the Last Three Decades](#)
- PaperNo.11-0175-O [Improving the Safety of Australian Vehicles – a Consumer Focused Approach.](#)
- PaperNo.11-0134-O [How Useful Are the Two Child Dummies in the Rear Seat of NCAP Testing?](#)
- PaperNo.11-0445-O [Rear Occupant Protection JNCAP Test](#)

## **Vehicle Structural Design Changes: Implications for Frontal Impact Protection and Compatibility**

- PaperNo.11-0209-O [Self-Protection and Partner-Protection for New Vehicles - Unece R94 Amendment](#)
- PaperNo.11-0295-O [Priorities for the Assessment of Frontal Impact Compatibility](#)
- PaperNo.11-0286-O [FIMCAR – Frontal Impact and Compatibility Assessment Research: Strategy and First Results for Future Frontal Impact Assessment](#)
- PaperNo.11-0335-O [Accuracy of AHOF400 with Moment Measuring Load Cell Barrier](#)
- PaperNo.11-0283-O [Use of Secondary Energy Absorbing Structures for Improved Self Protection Performance – Experiences During the Development of a Chassis Based Vehicle](#)
- PaperNo.11-0073-O [Front and Side Car-To-Car CAE Based Crash Analysis of Different Class Vehicles](#)
- PaperNo.11-0430-O [Progressive Deformable Barrier \(PDB\) – Evaluation of It's Impact on Small Car Designs Through CAE Analysis](#)
- PaperNo.11-0435-O [Frontal Impact Improvements - Enhanced Modelling of the Impact Barrier](#)
- PaperNo.11-0384-O [Injury Analysis of Real-World Small Overlap and Oblique Frontal Crashes](#)
- PaperNo.11-0372-O [Frontal Crashes Between the Longitudinal Rails](#)
- PaperNo.11-0239-O [Improving the Crash Compatibility of Cars and Roadside Poles](#)
- PaperNo.11-0074-O [Crash Test Performance of Large Truck Rear Underride Guards](#)
- PaperNo.11-0288-O [Analysis of Compatibility and Occupant Injury Mechanisms in Frontal Collisions Involving Buses in Spain](#)

## **Advances in Driver Assistance Systems for Heavy Trucks and Buses & All Aspects of Motorcycle Safety**

- PaperNo.11-0153-O [Advanced Driver Assistance Systems for Trucks – Benefit Estimation from Real-Life Accidents](#)
- PaperNo.11-0169-O [Vehicle Safety Communications for Commercial Vehicles: Issues Affecting Deployment of Vehicle to Vehicle Communications for Heavy Vehicles](#)
- PaperNo.11-0290-O [Development and Evaluations of Advanced Emergency Braking System Algorithm for the Commercial Vehicle](#)
- PaperNo.11-0443-O [Driver Performance with a Camera/Video Imaging System](#)
- PaperNo.11-0070-O [MoLife - Hazard Detection in a Cooperative Assistance System for Motorcycles](#)
- PaperNo.11-0156-O [Modelling of Indirect Visibility](#)
- PaperNo.11-0109-O [Conspicuity of Powered-Two-Wheelers](#)
- PaperNo.11-0191-O [The Potential of Different Countermeasures in Reducing Motorcycle Fatal Crashes: What In-Depth Studies Tell Us](#)
- PaperNo.11-0123-O [Advanced Rider Assistance Systems for Powered Two-Wheelers \(ARAS-PTW\)](#)

## **Assessments of New and Improved Field Data Collection & Analysis Methods**

- PaperNo.11-0042-O [Incident Detection Based on Vehicle CAN-Data Within the Large Scale Field Operational Test “euroFOT”](#)
- PaperNo.11-0215-O [Bridging Laboratory and FOT Studies](#)
- PaperNo.11-0168-O [A Study of NMVCCS to Identify Critical Pre-Crash Factors in Fatal Crashes](#)
- PaperNo.11-0144-O [Field Study on Crash Causal Factors of Chassis Modifications](#)

- PaperNo.11-0192-O [New Findings on the Usage of Logistic Regression in Accident Data Analysis](#)
- PaperNo.11-0338-O [Use of Car Crashes Resulting in Injuries to Identify System Weaknesses](#)
- PaperNo.11-0389-O [Evaluation of WinSmash Accuracy in NHTSA Side Crash Test Reconstructions](#)
- PaperNo.11-0282-O [Development of ACNS in Korea](#)
- PaperNo.11-0326-O [Predicting Occupant Outcomes with EDR Data](#)
- PaperNo.11-0315-O [Post Collision Vehicle Fire Analysis](#)
- PaperNo.11-0100-O [Creation of an In-Depth Road Traffic Crash Database for India: Coimbatore Rural District Case Study](#)
- PaperNo.11-0228-O [An Analysis of Improvements to Vehicle Safety and Their Contribution to Recent Declines in Fatalities and Injury Rates](#)
- PaperNo.11-0202-O [Safety of Light Goods Vehicles – Findings from the German Joint Project of BASt, DEKRA, UDV and VDA](#)
- 

## Table of Contents - Written Papers

### Advanced Technology #1: Safety Performance Effectiveness of Driver Assistance Technologies, Test & Evaluation Procedures, and Benefits Assessment

- PaperNo.11-0311-W [Development of Assessment Technology for Advanced Safety Vehicle in Korea](#)
- PaperNo.11-0147-W [LDWS Performance Study Based on Human Factors](#)
- PaperNo.11-0401-W [One Size Doesn't Fit All](#)
- PaperNo.11-0364-W [Potential Effectiveness of Integrated Forward Collision Warning, Pre-Collision Brake Assist, and Automated Pre-Collision Braking Systems in Real-World, Rear-End Collisions](#)
- PaperNo.11-0270-W [Progress Report on Evaluation of a Pre-Production Head-On Crash Avoidance Assist System Using an Extended “Safety Impact Methodology” \(SIM\)](#)
- PaperNo.11-0393-W [Proposal for a Test Procedure of Assistance Systems Regarding Preventive Pedestrian Protection](#)

### Advancements in Pedestrian and Other Vulnerable Non-Occupant Road User-Safety

- PaperNo.11-0424-W [\(22th ESV\)Comparison of Injury Assessment Between Flexible Pedestrian Legform Impactor\(Flex-PLi\) and EEVC WG17 Pedestrian Legform Impactor](#)
- PaperNo.11-0237-W [A New Advancement in Pedestrian Safety: Finite Element \(FE\) Modeling of the FLEX-PLI GTR](#)
- PaperNo.11-0014-W [A Simplified Model of Pedestrian Upper Legform Impact for Estimate of Energy-Absorption Space Underneath Bonnet Lead](#)
- PaperNo.11-0219-W [Car Bonnet Evaluation Against Pedestrian Head Impact Based on a Lumped Modeling Approach](#)
- PaperNo.11-0429-W [Dynamic Properties of Human Cancellous Bones](#)
- PaperNo.11-0177-W [Impactor Development for the Assessment of Active Pedestrian Protection Systems](#)
- PaperNo.11-0108-W [Safety Requirements for Small Motorised Alternative Vehicles](#)

## **Assessment of Performance of Occupant Protection Systems for Children, Older Adults, and Other Vulnerable Occupants**

- PaperNo.11-0205-W [Advanced Child and Occupant Detection System: Detection of Human Vital Signs by Seat-Embedded Ferroelectric Film Sensors and by Vibration Analysis.](#)
- PaperNo.11-0142-W [Analysis of Child Dummy Responses and CRS Performance in Frontal NCAP Tests](#)
- PaperNo.11-0246-W [Evaluation of an Improved Performance Anti-Submarining Seat Belt System](#)
- PaperNo.11-0113-W [Innovative Bonnet Active Actuator \(B2A\) for Pedestrian Protection](#)
- PaperNo.11-0348-W [NHTSA's Rear Seat Safety Research](#)
- PaperNo.11-0380-W [Real World Analysis of Rear Seat Occupant Safety in Frontal Crashes](#)
- PaperNo.11-0345-W [Research on Airbag Related Injuries](#)
- PaperNo.11-0291-W [Update on Lateral Impact Test Procedure for Child Restraint Systems](#)

## **Assessment of Strategies for Integrated Improvements in Fuel Economy and Safety, Including Use of Alternate Fuels and Batteries**

- PaperNo.11-0412-W [A Study of Fuel System Integrity and Electric Safety of HFCV](#)
- PaperNo.11-0117-W [Considerations Regarding Electric and Hybrid Vehicle Safety](#)
- PaperNo.11-0167-W [Why Should Aluminum Continue to Replace Steel in Cars? an LCA \(Lyfe Cylce Assessment\) Comparison](#)

## **Assessments of New and Improved Field Data Collection & Analysis Methods**

- PaperNo.11-0101-W [Analysis of the Rescue Operations of Injured Vehicle Occupants by Fire Fighters](#)
- PaperNo.11-0395-W [Crash Pulse Data from Event Data Recorders in Rigid Barrier Tests](#)
- PaperNo.11-0170-W [Drowning Deaths in Motor Vehicle Traffic Accidents](#)
- PaperNo.11-0371-W [Introduction and Initial Analysis of New Side Impact Variables Captured in NHTSA Crash Databases](#)
- PaperNo.11-0314-W [Measurements of the Grip Level and the Water Film Depth for Real Accidents of the German In-Depth Accident Study \(GIDAS\)](#)
- PaperNo.11-0231-W [Survival Analysis of Real-World Tire Aging Data](#)
- PaperNo.11-0385-W [The "AIS-0" Conundrum: The Complexities of Identifying the Uninjured in NASS-CDS](#)
- PaperNo.11-0095-W [Unintended Benefits of the National Motor Vehicle Crash Causation Study: a Highway Perspective](#)

## **Biomechanics #1: Crash Injury Analysis: Test and Computer Methods**

- PaperNo.11-0399-W [Subdural Hematoma and Aging: Crash Characteristics and Associated Injuries](#)
- PaperNo.11-0216-W [Assessment of Dummy Models by Using Objective Rating Methods](#)
- PaperNo.11-0038-W [Characterization of the Pediatric Shoulder'S Resistance to Lateral Loading Conditions](#)
- PaperNo.11-0162-W [Detailed Analysis of 3D Occupant Kinematics and Muscle Activity During the Pre-Crash Phase as Basis for Human Modeling Based on Sled Tests](#)
- PaperNo.11-0031-W [Development of a Finite Element Pam-Crash Model of Hybrid III Anthropomorphic Test Device with High Fidelity](#)
- PaperNo.11-0009-W [Development of an Advanced Finite Element Model for Pedestrian](#)

## Pelvis

- PaperNo.11-0428-W [Dynamic Properties of Shoulder Complex Bones](#)  
PaperNo.11-0366-W [Evaluation of Biofidelity of ECE Regulation No. 22 Injury Criteria](#)  
PaperNo.11-0331-W [Evaluation of Statistical Methods for Generating Injury Risk Curves](#)  
PaperNo.11-0422-W [Optimization of Vehicle Front for Safety of Pedestrians](#)  
PaperNo.11-0414-W [The Clarification of Individual Injury Mechanism Difference in Pedestrian FE Model Utilizing Cadaver Scaling and Posturing Techniques](#)

## **Biomechanics #2: Development of Crash Test Dummies Related Instrumentation and Analysis Techniques**

- PaperNo.11-0334-W [Evaluation of the Hybrid III 5th Female Modified Chest Jacket & Spine Box](#)  
PaperNo.11-0374-W [EVARID - Anthropometric and Biomechanical Specification of a Finite Element Dummy Model of an Average Female For Rear Impact Testing](#)  
PaperNo.11-0221-W [Traffic Accident Analysis Towards the Development of an Advanced Frontal Crash Test Dummy Indispensable for Further Improving Vehicle Occupant Protection Performance](#)

## **NCAP and Other Non-Regulatory Strategies for Improving Safety**

- PaperNo.11-0131-W [A Proposal for Rear Seat Head Restraint Geometric Ratings](#)  
PaperNo.11-0203-W [An Insight Into Real-World Multiple Impact Crashes and Potential Counter-Approaches](#)  
PaperNo.11-0106-W [Encouraging Safer Vehicles Through Enhancements to the NCAP Rating System](#)  
PaperNo.11-0298-W [Increasing the Uptake of Key Vehicle Safety Features – a Consumer Focused Approach.](#)  
PaperNo.11-0402-W [Relationship Between Pedestrian Protection Test Protocols and a Real Scenario](#)  
PaperNo.11-0440-W [The Newly Enhanced U.S. NCAP: A First Look at Model Year 2011 Ratings](#)

## **Restraint System Design and Performance Challenges: Effects of Future Fleet Changes**

- PaperNo.11-0151-W [Enhanced Seat Belt Modeling Process to Improve Predictive Accuracy Off Dummy Response in Frontal Impact](#)  
PaperNo.11-0354-W [Heavy Truck Occupant Restraint System - New Approved Concepts and Development Methods](#)  
PaperNo.11-0098-W [Optimization of Seat Belt Buckle Motion for Reducing Chest Deflection, Using Rib Eye Sensors](#)  
PaperNo.11-0262-W [Study on Steering Column Collapse Analysis Using Detailed FE Model](#)

## **Side Impact and Rollover Crashes: Prevention and Occupant Protection**

- PaperNo.11-0213-W [An Update on NHTSA's Research on Improved Restraints in Rollovers](#)  
PaperNo.11-0310-W [Crash-Test Results to Analyse the Impact of Non-Professional Repair on the Performance of Side Structure of a Car](#)  
PaperNo.11-0358-W [Deployment Characteristics of Seat Mounted Side Impact Airbags](#)  
PaperNo.11-0090-W [Predicting and Verifying Dynamic Occupant Protection](#)  
PaperNo.11-0116-W [Roll Over Injury Science and Roll Over Crash Typology](#)  
PaperNo.11-0105-W [Safety and Vision Improvements by Expandable A-Pillar](#)

## Government Status Reports

- PaperNo.11-0452-G [Government Status Report Australia](#)
- PaperNo.11-0453-G [Government Status Report Canada](#)
- PaperNo.11-0454-G [Government Status Report European Enhanced Vehicle-Safety Committee](#)
- PaperNo.11-0455-G [Government Status Report Germany](#)
